

# THE WHISKYS

In the three years they've been together The Whiskys (formerly The Whisky River Band) have carved themselves a niche in the Highlands for consistently strong performances that bring an ever-loyal crowd along for the ride.

Built on a solid base of driving guitar and beats, the five-piece from Inverness hail from Folk Rock roots, but their influences and sound add up to much more than the sum of their parts to offer a genuinely exciting experience for music lovers who like a party but aren't averse to using their grey matter.

The band have played at, and packed out tents at mainstream festivals such as the Wickerman, Belladrum Tartan Heart Festival, Rockness, Jocktoberfest, Brew at the Bog, B-Fest in Wick (Scotland's most northerly festival), (Scottish music industry showcase event) goNORTH, the IPO Festival in Liverpool (which included a set at the Cavern Club), as well as high profile support slots with acts such as Admiral Fallow, Big Country and Dog is Dead, earning rave reviews in the process. Their acclaimed first album 'The Taming of Me' has won plaudits from far and wide, and their eagerly-awaited second album is currently being recorded.

Whether singing about love, riots, the dysfunctional modern family, or the general confusion of modern society, the Whiskys' delight in shining a light on the windows of our lives with a blend of clever lyrics and hooks which pull you in - and in time-honoured cliché - leave you thirsty for more.
